BUSINESS DEVELOPMENT DIRECTOR | AI ENERGY | SaaS | ENTERPRISE SALES

Commercial leader with 15+ years building and scaling B2B sales organisations across AI-driven energy technology, SaaS platforms, renewable infrastructure, and industrial solutions. Proven success delivering UK go-to-market strategies, developing partner-led channel ecosystems, and managing full enterprise sales lifecycles from opportunity creation through contract execution.

Extensive experience developing strategic alliances across installers, distributors, infrastructure operators, and enterprise customers. Strong background combining energy optimisation software, asset performance platforms, and complex technical solution selling within fast-growth environments.

Entrepreneurial and commercially driven, with a track record of exceeding revenue targets, building pipelines exceeding £10M+, and accelerating market expansion across the UK energy sector. Immediately available for interim or permanent leadership roles.
